

LUNCH STORE Instructions:

1. Go to <http://tempeprep.org/> and click LUNCH STORE in the blue bar
2. Click REGISTER to set up your account. The Family Name will automatically be assigned to each child you register. The Username is what you will use to LOGIN and can be anything you want.
3. LOGIN, click UPDATE FAMILY, ADD STUDENT to enter each child and their grade. Click INSERT.
4. After adding each student, click PLACE YOUR ORDER.
5. Use the drop down menu to select which STUDENT this lunch is for.
6. The shaded calendar days are set up for hot lunch. Click on a day to see which restaurant is serving.
7. Select your student, and enter each item until all items for that day are complete. Then move on to another calendar day for that same student. Make sure your student's name appears in the window. We recommend that you keep ordering all items for the whole week for that student before moving on to another student.
8. When you are ready to pay, you will have to set up a PayPal account. This is very secure and encrypted, and you can link your PayPal account to any of your bank accounts or charge cards.
9. Then pay for your order using PayPal. Once you receive confirmation from PayPal that they received your payment, you will know that we got your order.
10. Every Saturday at midnight, the online ordering is closed for the following week. This is hardwired into the system and we cannot make any exceptions. No transfers or refunds will be given.
11. For questions contact: Louise Wolfe at 480-350-9022, or Louisewolfechef@gmail.com
